Department of Computer Science and Engineering

School of Engineering and Technology

CHRIST (Deemed to be University)

Kumbalgodu, Bangalore - 560 074

March-2026

Vision

"Excellence and Service"

Mission

"CHRIST (Deemed to be University) is a nurturing ground for an individual's holistic development to make effective contribution to the society in a dynamic environment."

Core Values

- Faith in God
- Moral Uprightness
- Love of Fellow Beings
- Social Responsibility
- Pursuit of Excellence

Department Vision

"To fortify Ethical Computational Excellence"

Department Mission

M1: Imparts core and contemporary knowledge in the areas of Computation and Information Technology.

M2: Promotes the culture of research and facilitates higher studies.

M3: Acquaints the students with the latest industrial practices, team building and entrepreneurship.

M4: Sensitizes the students to serve for environmental, social & ethical needs of society through lifelong learning.

Program Educational Objectives (PEOs)

PEO1: **Professional Acumen:** Understand, analyze and design solutions with professional competency for real world problems.

PEO2: **Critical Analysis:** Develop software/embedded solutions for the requirements, based on critical analysis and research.

PEO3: **Team work:** Function effectively in a team and as an individual in a multidisciplinary/multicultural environment.

PEO4: **Life Long Learning:** Accomplish holistic development comprehending professional responsibilities.

School of Engineering and Technology

Department of Computer Science and Engineering

CERTIFICATE

This is to certify that **Name 2** has successfully completed the project work entitled "**Your Project Title**" in partial fulfillment for the award of **Bachelor of Technology** in **Name of Specialization** during the year **2025-2026**.

Guide Name	**Co-Guide Name**
Guide Designation	Co-Guide Designation
Dr. Balamurugan M	**Dr. E A Mary Anita**
Head of Department	Assoc. Dean

School of Engineering and Technology

Department of Computer Science and Engineering

BONAFIDE CERTIFICATE

It is to certify that this project titled ”Your Project Title” is the bonafide work of

Name	Register Number
Name 1	Register No 1

Industry Certificate

Certificate PDF File has to kept in the Pictures Folder with the name IndustryCertificate.pdf

Acknowledgement

We would like to thank Vice Chancellor **Dr. Rev. Fr. Jose C C**, CHRIST (Deemed to be University), Pro Vice Chancellor **Dr. Rev. Fr. Viju P D**, Director of School of Engineering and Technology **Dr Fr Jiby Jose E**, Assitant Director **Fr. Shijin P J**, Dean **Dr Raghunandan Kumar R** and the Associate Dean **Dr Mary Anita E A** for their kind patronage.

We would like to express my sincere gratitude and appreciation to the Head of Department of Department of Computer Science and Engineering, School of Engineering and Technology **Dr. Balamurugan M**, for giving me this opportunity to take up this project.

We also extremely grateful to my guide, **Guide Name**, who has supported and helped to carry out the project. His constant monitoring and encouragement helped me keep up to the project schedule.

We also extremely grateful to my co-guide, **Co-Guide Name**, who has supported and helped to carry out the project. His constant monitoring and encouragement helped me keep up to the project schedule.

If outside the college-mention the organisation and the concerned people, like head of the organisation, guide and any other person you want to thank. All faculty and non-teaching staff. You may acknowledge your parents or any who supported you.I thank my parents.

Declaration

We, Hereby declare that the Project titled "**Your Project Title**" is a record of original project work undertaken by us for the award of the degree of **Bachelor of Technology** in **Name of Specialization**. We have completed this study under the supervision of **Guide Name**, Department of Computer Science and Engineering and **Co-Guide Name**, Co-Guide Department.

We also declare that this project report has not been submitted for the award of any degree, diploma, associate ship, fellowship or other title anywhere else. It has not been sent for any publication or presentation purpose.

Place: School of Engineering and Technology, CHRIST (Deemed to be University), Bangalore

Abstract

All reports or thesis [1], both BTech and MTech, must have an abstract included in it. An abstract is a summary of what is in the report or thesis.

P	Power in W (Js^{-1})
ω	Angular frequency in rads^{-1}

Chapter 1

INTRODUCTION

Figure 1.1 shows the ..

FIGURE 1.1: Figure 1

The report shall not have more than five chapters [2]. The title or heading of these chapters are also fixed except for the Chapter named 'Actual work'. Students have the

TABLE 1.1: Sample Table

Framework	Application
Research and Ethical Scoping	privacy, consent, and data bias
Ethical Data Acquisition	Dataset is anonymized

flexibility to choose the title for this chapter and its sub chapters.
Introduction chapter for both BTech and MTech. The chapter shall also have the following four mandatory sub-chapters:

$$F = ma$$

- bfkjgnn
- hgjhgj
- jgjhbjb

1.1 Problem Identification

Under this the reason for choosing the particular problem or title for the project shall be explained along with the thought process that was involved in doing so.

1.1.1 Subsection

This is a subsection.

1.2 Problem Formulation

The identified problem shall be formulated in a systematic manner and provide clarity on the problem statement and objectives

1.3 Problem Statement & Objectives

List of project objectives along with the problem statement shall be provided in this section.

1.4 Limitations

This is an academic research based project and has its own limitations with respect to time and other constraints. Also, there might be other limitations of the project work depicted in the reported that may not be obvious from the title. It is very important to mention those limitations and avoid any misconceptions in the minds of the readers and/or evaluators.

Chapter 2

LITERATURE SURVEY AND REVIEW

Any research based project is incomplete without a literature survey and review. Hence, this chapter is mandatory to both MTech and BTech projects. This chapter is mainly divided into two sub-chapters. Namely:

- Literature collection and segregation (called as literature survey – collection of data)
- Critical review of selected literature (from the ones collected during the survey)

The first cub-chapter is very straight forward to understand and perform. However, more emphasis is given to the second sub-chapter – Critical review. Consult with your guides/supervisors to understand this aspect and complete it accordingly. A slideshare presentation on literature review is a recommended reading. [1]

2.1 Literature Collection & Segregation

2.2 Critical Review of Literature

Chapter 3

RESEARCH METHODOLOGY

MTech project report or thesis must have this chapter. This is an optional chapter for BTech, but highly recommended. Along with a brief introduction to research methodology and its fundamentals, under this chapter, it is required to include the methodology adopted for entire research process of the project work, including the preliminary research or background study carried out to identify and formulate the problem. Research methodology is the most important aspect of any research based project work. All Christ University libraries have books and other literatures on research methodology. There are a lot of MOOCS courses too on research methodology and completing one is highly recommended for all MTech students if they do not have it as one of their courses.

Chapter 4

ACTUAL WORK

Upon completion of identifying & formulating the research problem, and carrying out the necessary literature survey and review, the actual work on the project is taken-up. This chapter is dedicated to the actual work done by students. Hence, the chapter name and sub-chapter names are not fixed. It is left to the discretion of the students with appropriate guidance from their respective supervisors. However, one or more of the following aspects (as applicable) shall be covered in this chapter:

- Methodology of the study or actual work (different from research methodology)
- Experimental and/or analytical work completed in the project
- Modeling, Analysis and Design
- Prototype and testing

4.1 Methodology for the Study

4.2 Experimental and/or Analytical Work Completed in the Project

4.3 Modeling, Analysis & Design

4.4 Implementation Details

4.5 Prototype & testing

Table Refer [Table 4.1]

TABLE 4.1: Student Marks

Name	Marks
Ajay	10
Vinay	20

Cross References: Citation, Index, Reference, Equation reference This is the methodology for the entire project work which includes even the process of deciding on the project title, objectives Figure 4.2 , etc. This is mandatory for MTech and optional for BTech)[**?**]. The data is shown in Table 4.1. The equation shown in Equation (4.1)

Inline Equation This is my equation. $f = ma \pm \alpha\Delta \begin{bmatrix} 1 & \chi \\ -1 & 0 \end{bmatrix}$,which is appearing in between some text.

Equation without Numbering

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Equation with Numbering

$$\dot{X} = \begin{bmatrix} 1 & p \\ 2 & \alpha \end{bmatrix} \begin{bmatrix} x_1 \\ x_2 \end{bmatrix} + Bu \tag{4.1}$$

Algorithm Format

Algorithm 1 Addition of two 8 bit numbers

1: Start
2: Input a and b
3: c=a+b
4: Output c
5: stop

Enumeration Format The following are the different flavor of Tex systems

1. TeXLive TeX System
   (a) TeXLive for Windows
      i. TeXLive
      ii. ProTex
   (b) MacTeX for Mac
2. MikTeX TeX System

Bullets Format The following are the advantages of LaTeX,

- LaTeX is highly portable and free.
  - Contribute to TUG
  - Promote Free Softwares
- Operating-system independent.
- Complex scientific documents can be created automatically.
- High quality math typesetting.

Program Inclusion Program file present in other directory can be embedded into the report.

```
; Addition of two 8 bit numbers
ORG 0000H   ; Starting address of the program
MOV R1,#10H ; First number
MOV R2,#20H ; Second number
MOV A,R1    ; Input first number from R1 to A
MOV B,R2    ; Input second number from R2 to B
```

```
ADD A,B      ; Add A and B
MOV R3,A     ; Store the result in R3
RET
```

Verbatim Text Include text as it is.
The additional database schema is shown below which is used to store all the configuration and transaction data.

```
CREATE TABLE ‘controller_config‘ (
‘load_id‘ int(11) NOT NULL,
‘ct_constant‘ double DEFAULT NULL,
‘pt_constant‘ double DEFAULT NULL,
‘samples‘ int(11) DEFAULT NULL,
‘delay‘ double DEFAULT NULL,
PRIMARY KEY (‘load_id‘)
) ENGINE=InnoDB DEFAULT CHARSET=utf8;
SELECT * FROM loadcontroller.load_details;
```

Chapter 5

RESULTS, DISCUSSIONS AND CONCLUSIONS

Here, the results of the project work (literature survey and review along with actual work) shall be listed and discussed in detail with appropriate arguments (result analysis) leading to logical conclusions. The list of conclusions should sync with the project objectives. The scope for future research and development in the field of the current project work must also be included in this chapter.

5.1 Results & Analysis

5.2 Comparative Study

5.3 Discussions

5.4 Cost Estimation Model

Provide the cost estimation model for your project considering various parameters of cost estimation.

5.5 Conclusions

Conclusion should be on new page and the same should come here.

5.6 Scope for Future Work

Future scope should be on new page and the same should come here.

Appendix A

Appendix A Title

Since the chapters are numerically numbered, the appendices shall be numbered using alphabets (English capital letters). The items that can be inserted as appendices are (list is not exhaustive):

- Project synopsis or proposal (if submitted before starting the project)
- Photos
- Software model analysis reports (these shall not be inserted in the main body of the report)
- Project schedules
- Selected material from the data collected
- Miscellaneous analysis and reports
